SUMMARY

Full Stack Developer with 3+ years of experience building scalable web applications, responsive user interfaces, and business-focused digital solutions using React, TypeScript, Node.js, Laravel, and MySQL. Skilled in developing RESTful APIs, optimizing application performance, and translating UI/UX designs into seamless user experiences. Passionate about creating efficient systems that automate workflows, improve operational efficiency, and deliver measurable business impact.

EXPERIENCE

AremxyPlug

Feb 2025 – Jan 2026

Frontend Developer

- Contributed as a Frontend Developer to a collaborative web application project at AremxyPlug.
- Built responsive and reusable UI components using React, TypeScript, and Tailwind CSS.
- Integrated backend APIs to support smooth data communication between frontend and backend systems.
- Improved application responsiveness and user interface consistency across different screen sizes.
- Collaborated with team members to implement clean, user-friendly, and maintainable frontend features.

Thinkitive Systems

November 2023 – January 2024, Ilorin

Software Developer

- Assisted in building frontend and backend features for web applications using JavaScript, PHP, and Laravel.
- Developed responsive user interfaces that improved usability across desktop and mobile devices.
- Worked with databases to organize and manage application data efficiently.
- Integrated APIs and collaborated with team members to support application functionality.
- Integrated APIs and collaborated with team members to support application functionality.

EXPERIENCE

Malhub

June 2023 – January 2024, Ilorin

Software Development Trainee

- Completed intensive full-stack development training focused on modern frontend and backend technologies.
- Built real-world web applications using JavaScript, React, PHP, Laravel, and MySQL.
- Collaborated on team-based projects using Git version control and clean coding practices.
- Improved application performance and code maintainability through debugging and optimization.
- Developed responsive and user-friendly interfaces following modern UI/UX principles.

Some of my Projects

E-Commerce Platform

React • Node.js • MySQL • REST APIs

- Built a full-featured e-commerce platform with a responsive UI and admin-driven product management system.
- Integrated RESTful APIs for product listing, cart operations, and dynamic data synchronization.
- Designed reusable UI components to improve scalability and reduce development time across features.
- Improved cross-device responsiveness ensuring smooth user experience across mobile, tablet, and desktop.

[Live Demo](#) | [GitHub](#)

AremxyPlug Web Application

React • Tailwind CSS • REST APIs

- Contributed to a production web application by building responsive UI components and improving frontend structure.
- Integrated backend APIs to enable smooth data flow between frontend interfaces and server-side logic.
- Enhanced UI responsiveness and optimized component reusability across multiple pages.
- Collaborated with developers to deliver clean, maintainable, and scalable frontend features.

[Live Demo](#) | [GitHub](#)

MedHouse Healthcare System

React • Laravel • MySQL • REST APIs

- Built a healthcare management system focused on simplifying data handling and improving user workflow efficiency.
- Developed responsive frontend interfaces and connected backend APIs for real-time data operations.
- Structured reusable UI components to improve maintainability and consistent user experience.
- Improved usability with clean layouts and optimized interaction flow across devices.

[Live Demo](#) | [GitHub](#)

Technologies Platform

React • Tailwind CSS • Laravel

- Designed and developed a platform to support tech professionals with tools for learning and career development.
- Built interactive UI components and ensured a smooth, responsive user experience across devices.
- Implemented modern frontend structure focusing on scalability and clean architecture principles.
- Improved UI performance and accessibility through optimized component design.

[Live Demo](#) | [GitHub](#)

Personal Portfolio Website

React • TypeScript • GSAP • Tailwind CSS • Framer Motion

- Designed and developed a personal developer portfolio showcasing projects, skills, and technical experience.
- Implemented smooth animations and interactive UI transitions using GSAP and Framer Motion.
- Built a fully responsive layout optimized for performance and cross-device compatibility.
- Focused on clean UI/UX design, accessibility, and modern frontend best practices.

SKILLS

- **Programming & Frameworks:** JavaScript, TypeScript, PHP, Laravel, React.js, Node.js
- **Front-End:** HTML, CSS, Tailwind CSS
- **Back-End:** REST APIs, Serverless, Apache
- **Databases:** MySQL, PostgreSQL, Sequelize
- **DevOps & Tools:** Git, GitHub, Docker, Redux, Vercel, VS Code
- **Soft Skills:** Teamwork, Communication, Adaptability, Problem-solving

EDUCATION

Abdulrasaq Abubakar Toyin University
Bachelor's Degree in Accounting (In View)

Malhub, Ilorin

Relevant Focus: Business Systems, Financial Processes, Data Analysis, Software Development Fundamentals

Technical Training: Full Stack Web Development (JavaScript, React, Node.js, PHP, Laravel, MySQL)

Note: I am flexible with time zones and open to remote opportunities.
