SUMMARY

Full-Stack Developer with 3+ years of experience building scalable web applications, responsive frontend systems, and business-focused digital solutions using React, TypeScript, Node.js, Laravel, and MySQL. Skilled in developing RESTful APIs, optimizing application performance, and creating reusable component architectures that improve efficiency and user experience. Passionate about helping businesses automate operations and build maintainable, high-performance software systems.

EXPERIENCE

AremxyPlug

Feb 2025 – Jan 2026

Frontend Developer

- Developed responsive and reusable frontend components using React, TypeScript, and Tailwind CSS, improving UI consistency and scalability across multiple application pages.
- Integrated RESTful APIs to support seamless frontend-backend communication and dynamic real-time data rendering.
- Improved cross-device responsiveness across 10+ application pages, enhancing accessibility and user experience on mobile, tablet, and desktop devices.
- Collaborated with developers and designers to implement scalable frontend solutions aligned with business requirements and user needs.
- Contributed to maintainable code architecture that reduced UI duplication and improved development efficiency.

Thinkitive Systems

November 2023 – January 2024, Ilorin

Software Developer

- Assisted in developing frontend and backend features for business-focused web applications using JavaScript, PHP, and Laravel.
- Built responsive user interfaces that improved usability and optimized interaction across desktop and mobile devices.
- Integrated APIs and database functionality to support secure and efficient application workflows.
- Collaborated within development teams using Git version control and clean coding practices.
- Integrated RESTful APIs and backend services to support secure data flow and efficient application functionality.
- Supported debugging, testing, and application optimization to improve system reliability and maintainability.

Malhub

June 2023 – January 2024, Ilorin

Software Development Trainee

- Completed intensive full-stack development training focused on React, Node.js, Laravel, MySQL, and modern web application architecture.
- Built real-world applications featuring responsive frontend systems and backend API integration.
- Collaborated on team-based software projects using Git workflows and agile development practices.
- Improved application maintainability through debugging, optimization, and reusable component development.
- Applied UI/UX best practices to create accessible and mobile-friendly user experiences.

PROJECTS

E-Commerce Platform

React.js • Node.js • MySQL • RESTful APIs

- Built a scalable e-commerce platform with responsive frontend architecture and admin-driven product management functionality.
- Integrated RESTful APIs for product listings, cart management, and dynamic data synchronization.
- Developed reusable UI components that reduced repeated frontend development effort and improved feature scalability.
- Optimized responsiveness and user experience across mobile, tablet, and desktop devices.

AremxyPlug Web Application

React.js • Tailwind CSS • RESTful APIs

- Contributed to a production web application by developing responsive frontend components and improving application structure.

- Integrated backend APIs to support smooth data flow between frontend interfaces and server-side systems.
- Improved UI responsiveness and component reusability across multiple pages and screen sizes.
- Collaborated with developers to deliver maintainable and scalable frontend features.

MedHouse Healthcare System

React.js • Laravel • MySQL • RESTful APIs

- Developed a healthcare management platform focused on simplifying workflow processes and improving data management efficiency.
- Built responsive frontend interfaces connected to backend APIs for real-time data operations.
- Structured reusable UI components to improve maintainability and consistent user experience.
- Enhanced usability through clean layouts and optimized interaction flow across devices.

Personal Portfolio Website

React • TypeScript • GSAP • Tailwind CSS • Framer Motion

- Designed and developed a modern portfolio website showcasing projects, technical skills, and development experience.
- Implemented smooth animations and interactive UI transitions using GSAP and Framer Motion.
- Built a fully responsive and performance-optimized layout with strong accessibility and cross-browser compatibility.
- Applied modern UI/UX principles to create engaging and user-focused digital experiences.

SKILLS

- **Front-End:** React.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Redux, Framer Motion, GSAP
- **Back-End:** Node.js, PHP, Laravel, NestJS, RESTful APIs
- **Full-Stack Framework:** Next.js
- **Databases:** MySQL, PostgreSQL
- **Authentication:** NextAuth, JWT
- **DevOps, ORM / Tools:** Git, GitHub, Docker, Vercel, VS Code, Prisma, Sequelize
- **AI Integration:** OpenAI API
- **Soft Skills:** Teamwork, Communication, Adaptability, Problem-solving, Time Management

EDUCATION

Abdulrasaq Abubakar Toyin University
Bachelor's Degree in Accounting (In View)

TECHNICAL TRAINING

Malhub, Ilorin

Full-Stack Web Development Training

Relevant Focus: JavaScript, React.js, Node.js, PHP, Laravel, MySQL, REST APIs, Business Systems Development

Open to remote opportunities and flexible across time zones.
